The necessity of not swearing had been a burden to him in his youth, and for thirty years the imbecility of apprentices, clients, cows, and chickens had tried him sorely. Apprentices and clients were afraid of his tongue, though cows and chickens paid no attention to his outbursts. He had never been angry at Silence before. There was a very long pause. He spent his days riding about the countryside on the pretty black mare that his employer had given him for his use when he made it clear that he had not come from Roke to trudge about on foot in the mud and dust of country byways. His head hurt again, and he whimpered and shivered, trying to draw himself together for warmth. "You must find the Red Mother," he said, the day after that. They were sitting side by side again outside the barracks. The autumn sun was warm. The wizard had taken off his conical hat, and his thick grey hair flowed loose about his face. "I know you found that little patch for them to dig, but there's no more in that than a few drops. It's scarcely worth burning for so little. He spent his youth and what remained of his inheritance in law courts and the anterooms of the Lords of Way in Shelieth, trying to prove his right to the whole domain as it had been a hundred years ago. He came back unsuccessful and embittered and spent his age drinking the hard red wine from his last vineyard and walking his boundaries with a troop of ill-treated, underfed dogs to keep interlopers off his land. The Doorkeeper bowed his head a little. A very faint smile made crescent curves in his cheeks. He stood aside. "Come in, daughter," he said. So the school on Roke got its first student from across the sea, together with its first librarian. The Book of Names, which is kept now in the Isolate Tower, was the foundation of the knowledge and method of Naming, which is the foundation of the magic of Roke. Taking dragon form himself, he flew to battle with Orm over Mount Onn. "Flame and fire in the midnight air" could be seen from the palace in Havnor. They flew north, Erreth-Akbe in pursuit. Over the sea near Taon, Orm turned again and this time wounded the mage so that he had to come down to earth and take his own form. He came, with the dragon now following him, to the Old Island, Ea, the first land Segoy raised from the sea. On that sacred and powerful soil, he and Orm met. Ceasing their battle, they spoke as equals, agreeing to end the enmity of their races.. "If I lie down I won't get up. I want to see the Mountain." . Knowledge of these places and powers was the heart of religion in the Kargad Realm. In the Archipelago, the lore of the Old Powers was still part of the profound, common basis of thought and reverence. On all the islands, the arts mostly practiced by witches, such as midwifery, healing, animal husbandry, dousing, mining and metallurgy, planting and growing spells, love spells, and so on, often invoked or drew upon the Old Powers. But the learned wizards of Roke had generally come to distrust the ancient practices and made no appeal to the "Powers of the Mother."
