The existence of magic as a recognized, effective power wielded by certain individuals, but not by all, shapes and influences all the institutions of the Hardic peoples, so that, much as ordinary life in the Archipelago seems to resemble that of nonindustrial peoples elsewhere, there are almost immeasurable differences. One of these differences may be, or may be indicated by, the lack of any kind of institutionalised religion. Superstition is as common as it is anywhere, but there are no gods, no cults, no formal worship of any kind. Ritual occurs only in traditional offerings at the sites of the Old Powers, in the great, universally celebrated annual festivals such as Sunreturn and the Long Dance, in the speaking and singing of the traditional songs and epics at these festivals, and, perhaps, in the performance of spells of magic.. All he saw was a mist on the water, all across the sea beyond the mouth of the bay. As he watched. Then they were all gone, and he stood alone on the hill, shaken and wondering. "I have seen the. moved you to break it and let her come in.". The deeds and lays that tell of raids by dragons and counterforays by wizards portray the dragons as pitiless as any wild animal, terrifying, unpredictable, yet intelligent, sometimes wiser than the wizards. Though they speak the True Speech, they are endlessly devious. Some of them clearly enjoy battles of wits with wizards, "splitting arguments with a forked tongue." Like human beings, all but the greatest of them conceal their true names. In the lay Hasa's Voyage, the dragons appear as formidable but feeling beings, whose anger at the invading human fleet is justified by their love of their own desolate domain. They address the hero: There he was well received by King Thoreg, who, after the shattering loss of his fleet, was ready to call a truce and withdraw from the occupied Hardic islands if Maharion would seek no reprisal.. She said nothing. Labby, glancing at her, set his woodhorn to his lips. The drummer struck a triple beat on his tabor, and they were off into a sailor's jig.. much for good manners, he thought.. At first he was overwhelmed with fierce fantasies of power and revenge: he would free the slaves, he would spellbind Gelluk and hurl him into the refining fire, he would bind him and blind him and leave him to breathe the fumes of quicksilver in that highest vault till he died... But when his thoughts settled down and began to run clearer, he knew that he could not defeat a wizard of great craft and power, even if that wizard was mad. If he had any hope it was to play on his madness, and lead the wizard to defeat himself.. A note sung..The food of dragons is said to be light, or fire; they kill in rage, to defend their young, or for sport, but never eat their kill. Since time immemorial, until the reign of Heru, they had used only the outmost isles of the West Reach-which may have been the easternmost borders of their own realm-for meeting and breeding, and had seldom even been seen by most of the islanders. Naturally irritable and arrogant, the dragons may have felt threatened by the increasing population and prosperity of the Inner Lands, which brought constant boat traffic even out in the West Reach. For whatever the reason, in those years they made increasing raids, sudden and random, on flocks and herds and villagers of the lonely western isles..King!"
