She was blind in her right eye and wore a black felt patch over it. She claimed she had lost the eye in a fight with a Creole whore over a riverboat gambler. I believed her. He stops at intervals to follow the bee in real time, then accelerates again. The hive is growing smaller, more primitive. Now it is only a cluster of round cells, and the bee is different, more like a wasp. His year's labor is coming to fruition. But Swyley hated spinach and fish even more than he hated being tested, and within a week he was afflicted by acute color-blindness, which he demonstrated by refusing to see anything at all in even the simplest of training displays..I shook my head.
